

## Preferred drug list

*An evidence-based pharmacy program that works for you*

### What is the Moda Health Preferred Drug Program and preferred drug list?

The Moda Health Preferred Drug Program is a pharmacy program that offers a choice of medications that are safe, effective treatments. The program provides value to Moda Health members by saving them money on prescription medications. These medications are shown in our preferred drug list.

### How does the program work?

This program uses a tiered copay/coinsurance system. Members and their doctors can choose between the value tier, generic tier, preferred tier or brand tier medications. Each tier has a different copay/coinsurance amount, and what you pay depends on your plan. Refer to your Member Handbook or call Moda Health for plan details or specific medication tier information.

### Who makes decisions about medications on the preferred drug list?

The list is developed and maintained by a group of doctors and pharmacists called the Pharmacy and Therapeutics Committee. The committee makes decisions based on information about the medication's safety, effectiveness and associated clinical outcomes.

Value tier	Generic tier	Preferred tier	Brand tier
Value medications include commonly prescribed medications used to treat chronic medical conditions and preserve health.	Generic medications are considered by physicians and pharmacists to be therapeutically the same as brand name alternatives and at the most favorable cost. Generic medications must contain the same active ingredient as their brand name counterparts and be identical in strength, dosage and format.	The preferred tier includes brand and specialty brand name medications that have been reviewed by Moda Health and found to be clinically effective at a favorable cost when compared with other medications in the same category.	This tier includes brand and specialty brand name medications that have been reviewed by Moda Health and found not to have a significant therapeutic advantage over their preferred tier counterparts.

## How to read your preferred drug list

Refer to the chart below for a listing of commonly prescribed value, generic, preferred, and brand tier medications. Medications that are new to the market are subject to a review period. Please contact us if you are taking a medication that is new to the market.

The preferred drug list is not fully inclusive of all covered medications. For medications not listed, Moda Health provides an online drug price check tool for members. You can access this resource by logging in to your myModa account at [modahealth.com](http://modahealth.com) and choosing the Pharmacy tab.

For more information about our Preferred Drug Program, please visit [modahealth.com/aims](http://modahealth.com/aims) or call us toll-free at 855-294-1669.

Key
<b>V</b> – Value tier copay/coinsurance
<b>G</b> – Generic tier copay/coinsurance
<b>P</b> – Preferred tier copay/coinsurance
<b>B</b> – Brand tier copay/coinsurance
